letters is the great, crying abuse. If A., B. and C. are authorized to send their letters and documents through the mails, and have them distributed by carriers at public cost, D., E. and F. will borrow and use their franks to push their wares into notice. No reform can be worth a rush that leaves the franking privilege in existence.

The milesge swindle needs the like wholesome discipline. Once, it was excused on the plea of inatequate pay; but Congress is now the best payed legislative body on earth, unless Louis Napoleon's gagged Senate forms an exception. Take the Oregon members, for example. They must usually leave house about the middle of April, 1830—1830 pay eighten months' services, incinding a long vacation. The pay for this service is \$10,000—quite enough. Now, we do not object to paying their traveing expenses—say \$10,000—in addition. But they were allowed to charge exorbiantly for the journey they do make, and then double the dose for an imaginary or constructive journey home and back again that they do not make, between the regular accessions. And though an unrepealed law prescribes that there and there is a construction and unrepealed law prescribes that there are constructive journey home and back again that they do not make, between the regular accessions. From the Columbus(G.) Journal.

If people will only think of it, they will recollect that they have never seen a Jewish beggar. Of all class they are most free from loafers, vagrants and "cumberers of the ground." A well known assistate of Richmond gives the following highly complimentary in the second of the load of the ledger when a load of the ledger when a load of the ledger when a second of the ledger when a load of the load of the ledger when a load of the ledger when a load of the ledger when a load of the load of a Jewish beggar. Of all clans they are most free from loafers, vagrants and "comberers of the ground." A well known magistrate of Richmond gives the following highly complimentary notice of this race of people who are so often causelessly abused: "I was commonwealth Attorney of the city of Richmond for twenty-one years, and, in that long period, I prosecuted only three Jews, and two of them were most homorably acquitted, there being not a particle of evidence to sonstain, the charges. During my fourteen years of service as a magistrate, only one Jew was before me for trial, and he was sequitted. In that long period I do not remember ever having application for public charity from any individual of either sex, or age, belonging to that faith; and so far as I am aware, no Jewish child has ever received the bemedia of our free schools, for which their parents, without murmur, pay their taxes."

THE PARTY SAMORTHER STREET, AND ADDRESS.

The memorial presented to the Board of Health by eminent physicians, with regard to the impurity of the matter used in the vaccination of children in the public schools, demands thorough investigation. It is attack that much of the vaccine virus thus used is taken investigation. It is attack that much of the vaccine virus thus used is taken from persons who are scrotluous or otherwise diseased, and that by this means terrible majadies are up to be communicated. It will not do to discommunicated. It will not do to discommunicated. means terrible mainties are spi to be communicated. It will not do to dismiss this subject lightly. The school regulations require that every child who attends the public schools shall be vaccinated, as a preventative against small-pox, and it is, avident that this can be done with safety only by the greatest care and precaution. There is no more certain way of communicating disease from one person to another than by vaccination, and it is a fact well known to physiciana, that persona often have loathsome diseases in the blood which do not appear externally. The only sure guard against such danger consists in using no vaccine viration, that is not taken directly from kine, and the Board of Health should at once take measures accordingly.

-At the Grant meeting in New York are considered before theirs. I tried for eight days to get a soldier who had lost two fingers in the war employment on the new court-house in the park. [Laughter.] I went from the supervisor to the foreman, from foreman to alderman, and finally got down to a councilman, and the L gave it up. [Great laughter.] But not one of them falled to express a great deal of regret that I had been such a fool as to get lame in such an infernal war."
